CH

Customer agrees to accept and pay the rates and charges for waste removal/recycling services provided by the City of Mesa in the quantities, capacities, types, and frequency specified in this Service Agreement. The Service Term shall commence upon the date this Service Agreement is signed by the Customer.

CH

This Service Agreement shall automatically renew for an additional and like term unless terminated in writing at least sixty (60) days in advance of such renewal. After the renewal term, the Customer may terminate service effective the last day of the next full billing cycle by providing written notice by certified mail to the City.

CH

Charges for service may be adjusted by the Mesa City Council in its sole and absolute discretion. In the event the refuse bin service base rate charges are increased more than eight percent in any one City of Mesa fiscal year period during the Service Term, Customer may terminate this Service Agreement without further obligation by providing written notice by certified mail to the City within sixty (60) days of the effective date of the increase.

CH

Except as otherwise provided herein, if Customer elects to terminate this Service Agreement prior to the end of the Service Term, the parties agree that it would be difficult if not impossible to accurately calculate the resulting damages to the City and therefore agree a fair estimate of such damages is equal to the non-discounted monthly service charge multiplied by the lesser of (i) six (6) months of service or (ii) the remaining Service Term ("Early Termination Damages") plus the total sum of the discount previously received if applicable. Customer shall pay any applicable Early Termination Damages within 30 days of terminating this Service Agreement.
