DUE DATE / LATE FEE

Utility bills are due on or before 16 days after the bill date.

Five days after the due date, a late fee is assessed. The fee is 10% of the new charges or a minimum of \$5.00.

A past due notice providing a two-week extension will be mailed. If no payment is received by the extension date, disconnection proceeds as outlined below.

DISCONNECTION FOR NON-PAYMENT

Once processed for disconnection, the entire balance (past due amount, current bill & related fees) is required to restore services. Additional deposits may be charged for multiple disconnections in a 12-month period.

Only cash, credit card or money order payments will be accepted once an account has been disconnected.

After making the payment, you must contact our office to schedule the reconnection. If service is reconnected by a non-City technician, a tampering fee will apply.

FINANCIAL ASSISTANCE

A payment plan may be available for qualified accounts. This requires a 50% payment of the current bill plus an administrative fee.

Please see our website for additional requirements in addition to other community resources.

ACCOUNT RESPONSIBILITY

Please note that failure to receive a bill does not excuse late fees or service disconnections.

Ensure your contact information (phone number, email and mailing address) is current. Email changes to: ContactWaterBilling@McKinneyTexas.org

The account holder is responsible for payment of services until a cancel request is received. The form is available online or at the office.

BILLING DISPUTES

Current rates & fees are available on our website. The number of trash carts billed is based on the prior occupant's quantity and/or a visual audit. The account holder is responsible for verifying trash charges.

Prior to disputing a bill, please visit our website FAQ page for information on identifying leaks and estimating water usage. An hourly usage report may be available for a fee.

AFTER HOURS EMERGENCY

Call 972-547-7550 and the messaging service will dispatch a technician. The response time may not be immediate. We recommend that you locate your personal shut-off valve prior to an actual emergency to minimize property damage.
